I have selected 104 colors for Caitlin's palette. They include her **skin tones** (both melanin and hemoglobin); **hair** and **eye** colors (including the whites of her eyes and teeth as they are prominent); **red** colors related to her skin tones, and **neutrals**. These 34 colors alone make an harmonious palette to create a beautiful Adaptable Basics Wardrobe.

The remaining colors, which I have carefully selected from all hue families around the color wheel, expand her palette. Together Caitlin's palette is filled with colors in a wide range of intensities and that represent all resonances -- all colors together give her creativity so much color inspiration! Since my goal is to stimulate each client's creativity, my consultation includes individualized tips on how to use her colors: "Using My Colors for My Lifestyle"
